Periodic Table Practice

The elements below are missing important information. Use your periodic table to fill in the missing 3 parts in each element square. All squares should tell the atomic symbol, element name, atomic number, and atomic mass. Use the image below to help you.

	S	Ba	40		
Manganese				63.55	Molybdenum
35			23		
	26.98	196.97		Potassium	Argon
15					
	78.96	55.85	Sodium	Magnesium	238.04
	31				
		Ti	Po		
Tin				Lead	264

Challenge

What two letters are not used on the periodic table? _____
